The techfrederick Leadership Conversation

Recurring event series

Source: techFrederick

The techfrederick Leadership Conversation is our signature annual event, presented by Edgewater Federal Solutions, bringing nationally recognized technology leaders to Frederick for an intimate and engaging discussion of leadership, innovation, and the future of technology. Each year, this special evening features a prominent voice from the worlds of technology, government, cybersecurity, research, or innovation, sharing personal insights and experiences from leading at the highest levels of complex organizations.

Presented in a conversational fireside format, the event offers a rare opportunity to hear directly from leaders who are shaping the systems, policies, and technologies that impact our world.

More than just a lecture, the Leadership Conversation is designed to spark meaningful dialogue, encourage collaboration, and connect Frederick’s growing technology community with leaders operating on the national and global stage.

Attendees include technology professionals, entrepreneurs, business leaders, educators, students, and community members who are interested in the evolving role of technology in our economy and society. Past and Present Speakers 2025 – Gen.
