FREDERICK COUNTY DEVELOPMENT REVIEW

Contractor building, retail facility proposed in October county filings

2026-11-05 **Source: Frederick County Development Review**

A 12, 000-square-foot contractor's office and storage building and a 5, 458-square-foot retail facility are among the development proposals Frederick County received in October 2026.

The county's monthly report lists applications received, rather than project approvals.

The contractor project, submitted Oct. 30 for 4930 Winchester Boulevard, would include a fenced outdoor storage area. The retail proposal, received Oct. 8, calls for associated parking and on-site amenities at 6499 Corporate Drive.

At 11026 Fingerboard Road, AT&T proposes removing two existing cooling towers and installing a 23-foot-6-inch by 30-foot concrete pad with two 200-ton air-cooled chillers.

The application description says the company's current chillers are beyond their serviceable life. The county received the filing Oct. 7.

An Oct. 26 filing proposes a social hall at Eaglehead Preserve, 11330 Country Club Road, for staff meetings and residents' social gatherings.

The Career Fire Fighters Association of Frederick County also filed plans for a building at 8827 Yellow Springs Road. Its brief description does not specify the building's size or intended use.
